BRITISH ENGINEERING STANDARDS ASSOCIATION

Año 1933

- N.º 23. British Standard Specification for Trolley and Contact Wire and Trolley Wheel Groove for Electric Traction.
- » 31. Steel Conduit and Fittings for Electrical Wiring.
 - » 108. Graphical Symbols for General Electrical Purposes.
 - » 131. Notched Bar Test Pieces.
 - » 153. Girder Bridges.
 - » 148. Insulating Oils for Electrical Purposes (Excluding Cables).
 - » 234. Ebonite for Electrical Purposes.
 - » 327. Derrick Cranes (Hand Operated).
 - » 437. Cast Iron Spigot and Socket.
 - » 481. Woven Wire and Perforated Plate. Sieves and Screens for Industrial Purposes.
 - » 482. Wrought Iron and Mild Steel. Hooks for Cranes, Chains, Chain Slings and General Engineering Purposes (Excluding Building Operations).
 - » 483. The Attachment of Circular Metal Cutting Saws.
 - » 484. Rolled Steel Disc Wheel Centres for Electric Tramway Cars.
 - » 485. Tensile Tests on Thin Metal Sheet and Strip.
 - » 486. Asbestos Cement Pressure Pipes.
 - N.º 487. Fusion Welded Steel Air Receivers.
 - » 488. Moulded Insulating Materials suitable for Accessories for General Electrical Installations.
 - » 489. Turbine Oils.
 - » 490. Rubber Conveyor and Elevator Belting.
 - » 491. Aircraft Purposes (Including Sources of Supply and Application to Aircraft).
 - » 492. Precast Concrete Partition Slabs (Solid).
 - » 493. Cast Iron Airbricks and Gratings (for use in Brickwork).
 - » 494. Cold Drawn Weldless Steel Boiler and Superheater Tubes.
 - » 495. Fittings for Double-Capped Tubular Lamps.
 - » 496. Sampling and Analysis of Coke.
 - » 497. Cast Iron Manhole Covers and Frames (Light).
 - » 498. Engineers Files and Rasps.
 - » 499. Nomenclature, Definitions and Symbols for Welding and Cutting.
 - » 500. Steel Railway Sleepers for Flat Bottom Rails.
 - » 501. Metric Units of Volume.
 - » 502. Sampling of Large and Run-of-Mine Coal.
 - » 503. Creosote for Fuel Furnaces.
 - » 504. Drawn lead traps.
 - » 505. Road Traffic Control (Electric) Light Signals.
 - » 506. Methyl Alcohol (Methanol).
 - » 507. Ethyl Alcohol.

- N.º 508. Normal Butyl Alcohol (Butanol).
- « 509. Acetone.
 - » 510. Single-Coat Asphalt (Cold Process).
 - » 511. Two-Coat Asphalt (Cold Process).
 - » 513. European Larch Poles for Transmission Lines.
 - » 514. Backing Insulating Varnish (Bitumen Type) for Electrical Purposes.
 - » 515. Crude Carboic Acids 60's and 45's.
 - » 516. Distilled Carboic Acids, 60's and 45's.
 - » 517. Cresylic Acid of High Orthocresol Content.
- N.º 518. Medium-Hard Copper Strip, Bars, And Rods for Electrical Purposes.
- » 519. Tractive Armature Direct-Current Neutral-Polar Line Belays.
 - » 520. Alternating-Current Track Relays.
 - » 521. Cresylic Acid (50/55 per cent metacresol)
 - » 522. Orthocresol, Metacresol and Paracresol.
 - » 523. Phenol.
 - » 524. Refined Cresylic Acids, Grades A and B.
 - » 525. Fibre Cores for Wire Ropes.
 - » 526. Cross and Net Calorific Value.
